Diamond Collection

The Diamond collection has inspired by persian designs and modern lifestyles , As users could swallow, in persian designs, special attention is paying to the elegance and originality of the designs. According to the changing of lifestyles in the launch time this new Collection after Covid era, and the study of chromatic sciences, this collection could create a complete aspects of color environment even in the small area. On the other hand, due to the integral fibers, this product does not have any dost and has no side effects. Enjoy life with our representative...

Construction	Machine-Made
Material	Polypropylene - Heatset
Resolution	980,000 points
Sizes	Big sizes (width 400cm), Standard sizes, Runner, Oval, Round, Square, Rolls & Wall-to-Wall

Money Can't Buy You Happiness

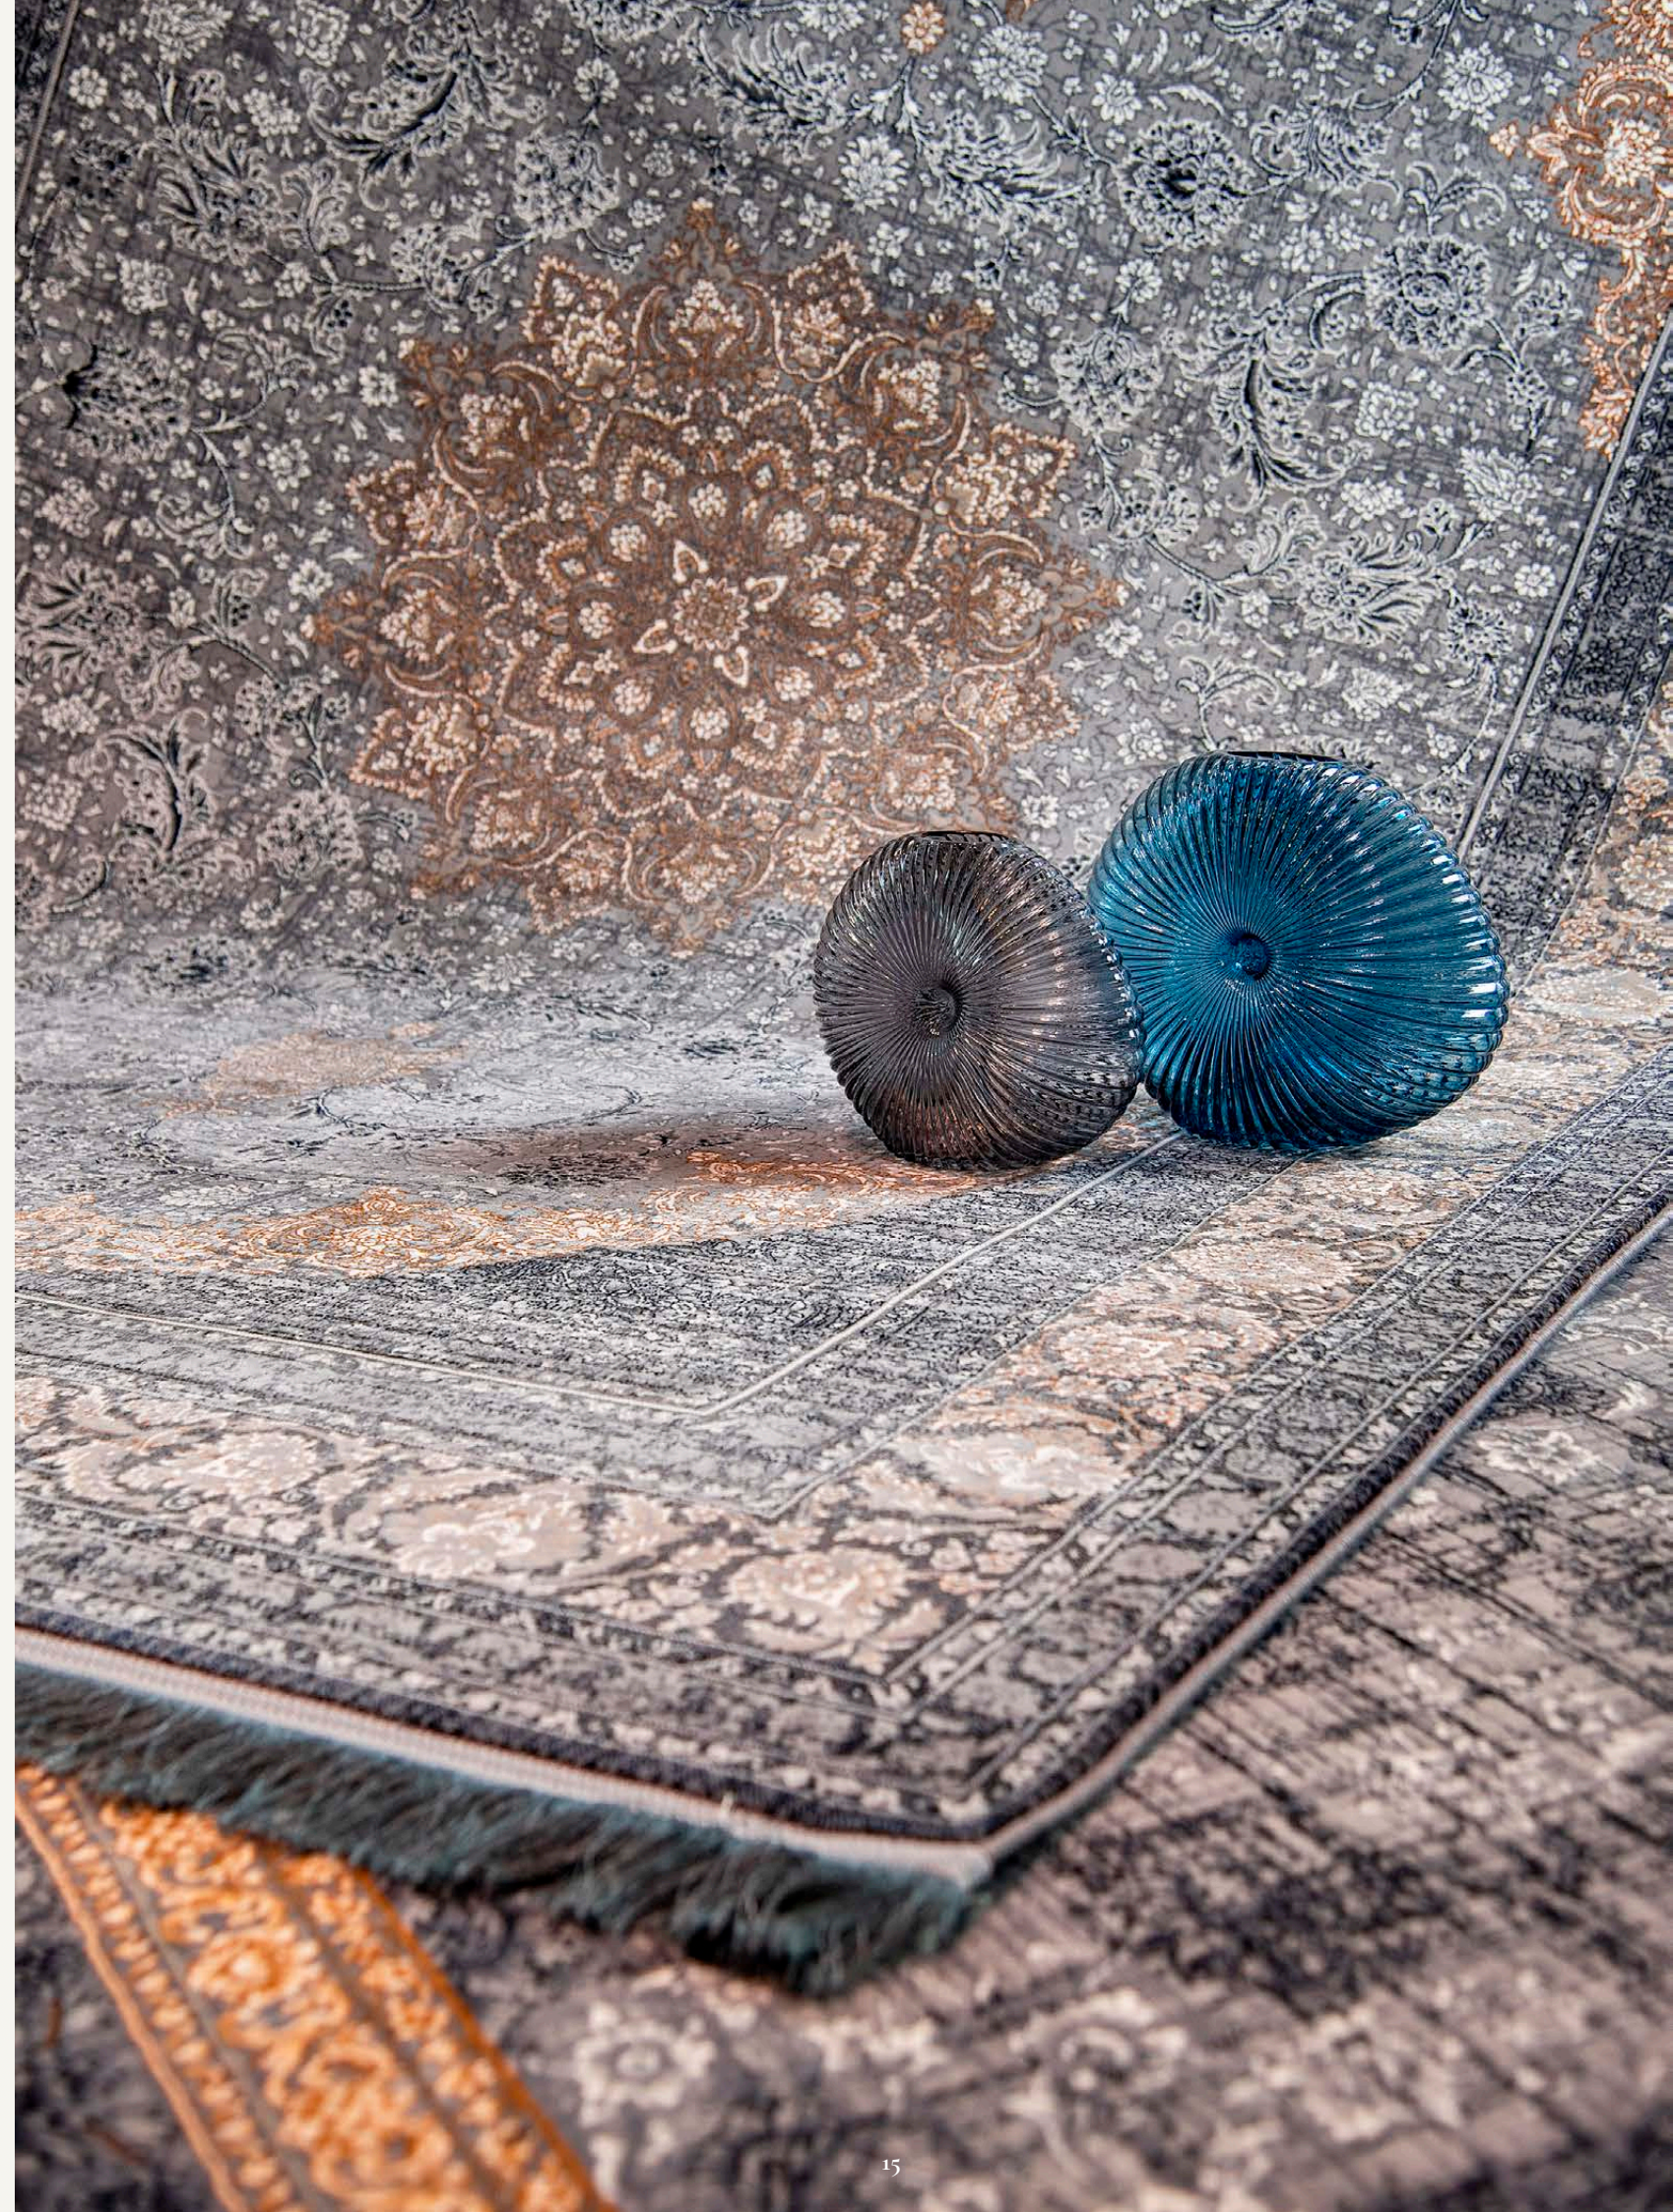

We decided to create a collection inspired by Iran's old centuries' art and Persian handmade carpets. Using our expert team, we could offer a different view of Iranian machine-made carpets to the world. To cover tastes in vast markets, We selected three popular categories of Iranian styles; Isfahan, Afshan, and Khashti. According to achieve a matchable and attractive carpet, we combined gray shades with particular colors.

Fusion of Art and Modernity

According to the machine-made Persian carpet, the differences are tiny, but the result is massive!

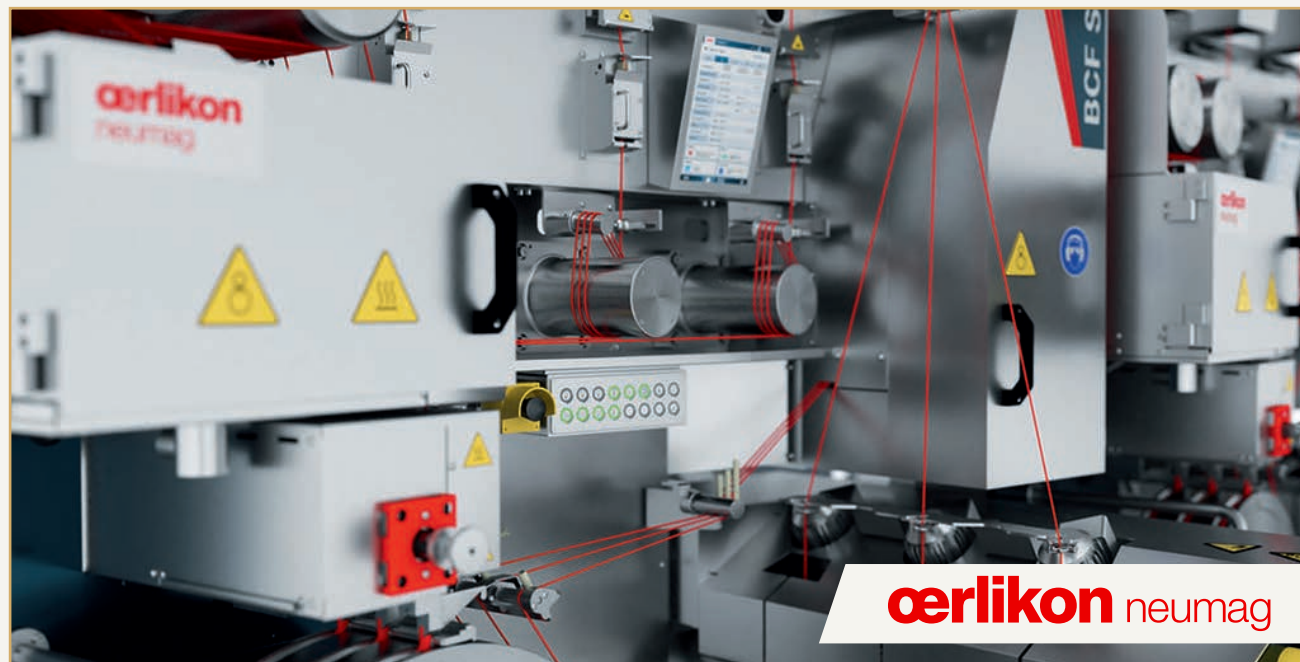

To perform the concept of fine Persian traditional carpet, we should control many factors from our idea to the final products, Like; color palette, design, fiber and material, weave structure, yarn count, finishing process, and... That each step has its specifications.

So finally, we considered all the chain production to perform the best of our concept.
