Manufacturer and Distributor of
machine-made rug and carpet
to all around the world

LEXON

Lexon is more than just a carpet company. We are a group of passionate craftsmen who have been creating and delivering beautiful, durable machine-made carpets for over four decades.

We know that every customer has different needs and preferences, and we are ready to meet them with our wide range of products. Whether you are looking for a cozy rug for your living room, a stylish wall-to-wall carpet for your office, or a custom-made masterpiece for your special occasion, we have it all.

Our carpets come in various materials, colors, designs, and densities, from 300,000 to 4,500,000 points per square meter. We use only the finest quality materials, such as Acrylic, Polypropylene, Polyester, Wool, Viscose, and Modal, to ensure that our carpets are soft, durable, and easy to maintain.

We also have a dedicated R&D team that constantly explores new trends, materials, and techniques to bring you the most innovative and attractive carpets in the market.

At Lexon, we believe the customer is always right and strive to provide the best service possible. Trust us with your carpet needs; we will make your dreams come true.

Money Can't Buy You Happiness

Our collection is inspired by Iran's ancient art and the beauty of Persian handmade carpets. We aim to showcase a different perspective of Iranian machine-made carpets to the world, based on the innovation of our expert team.

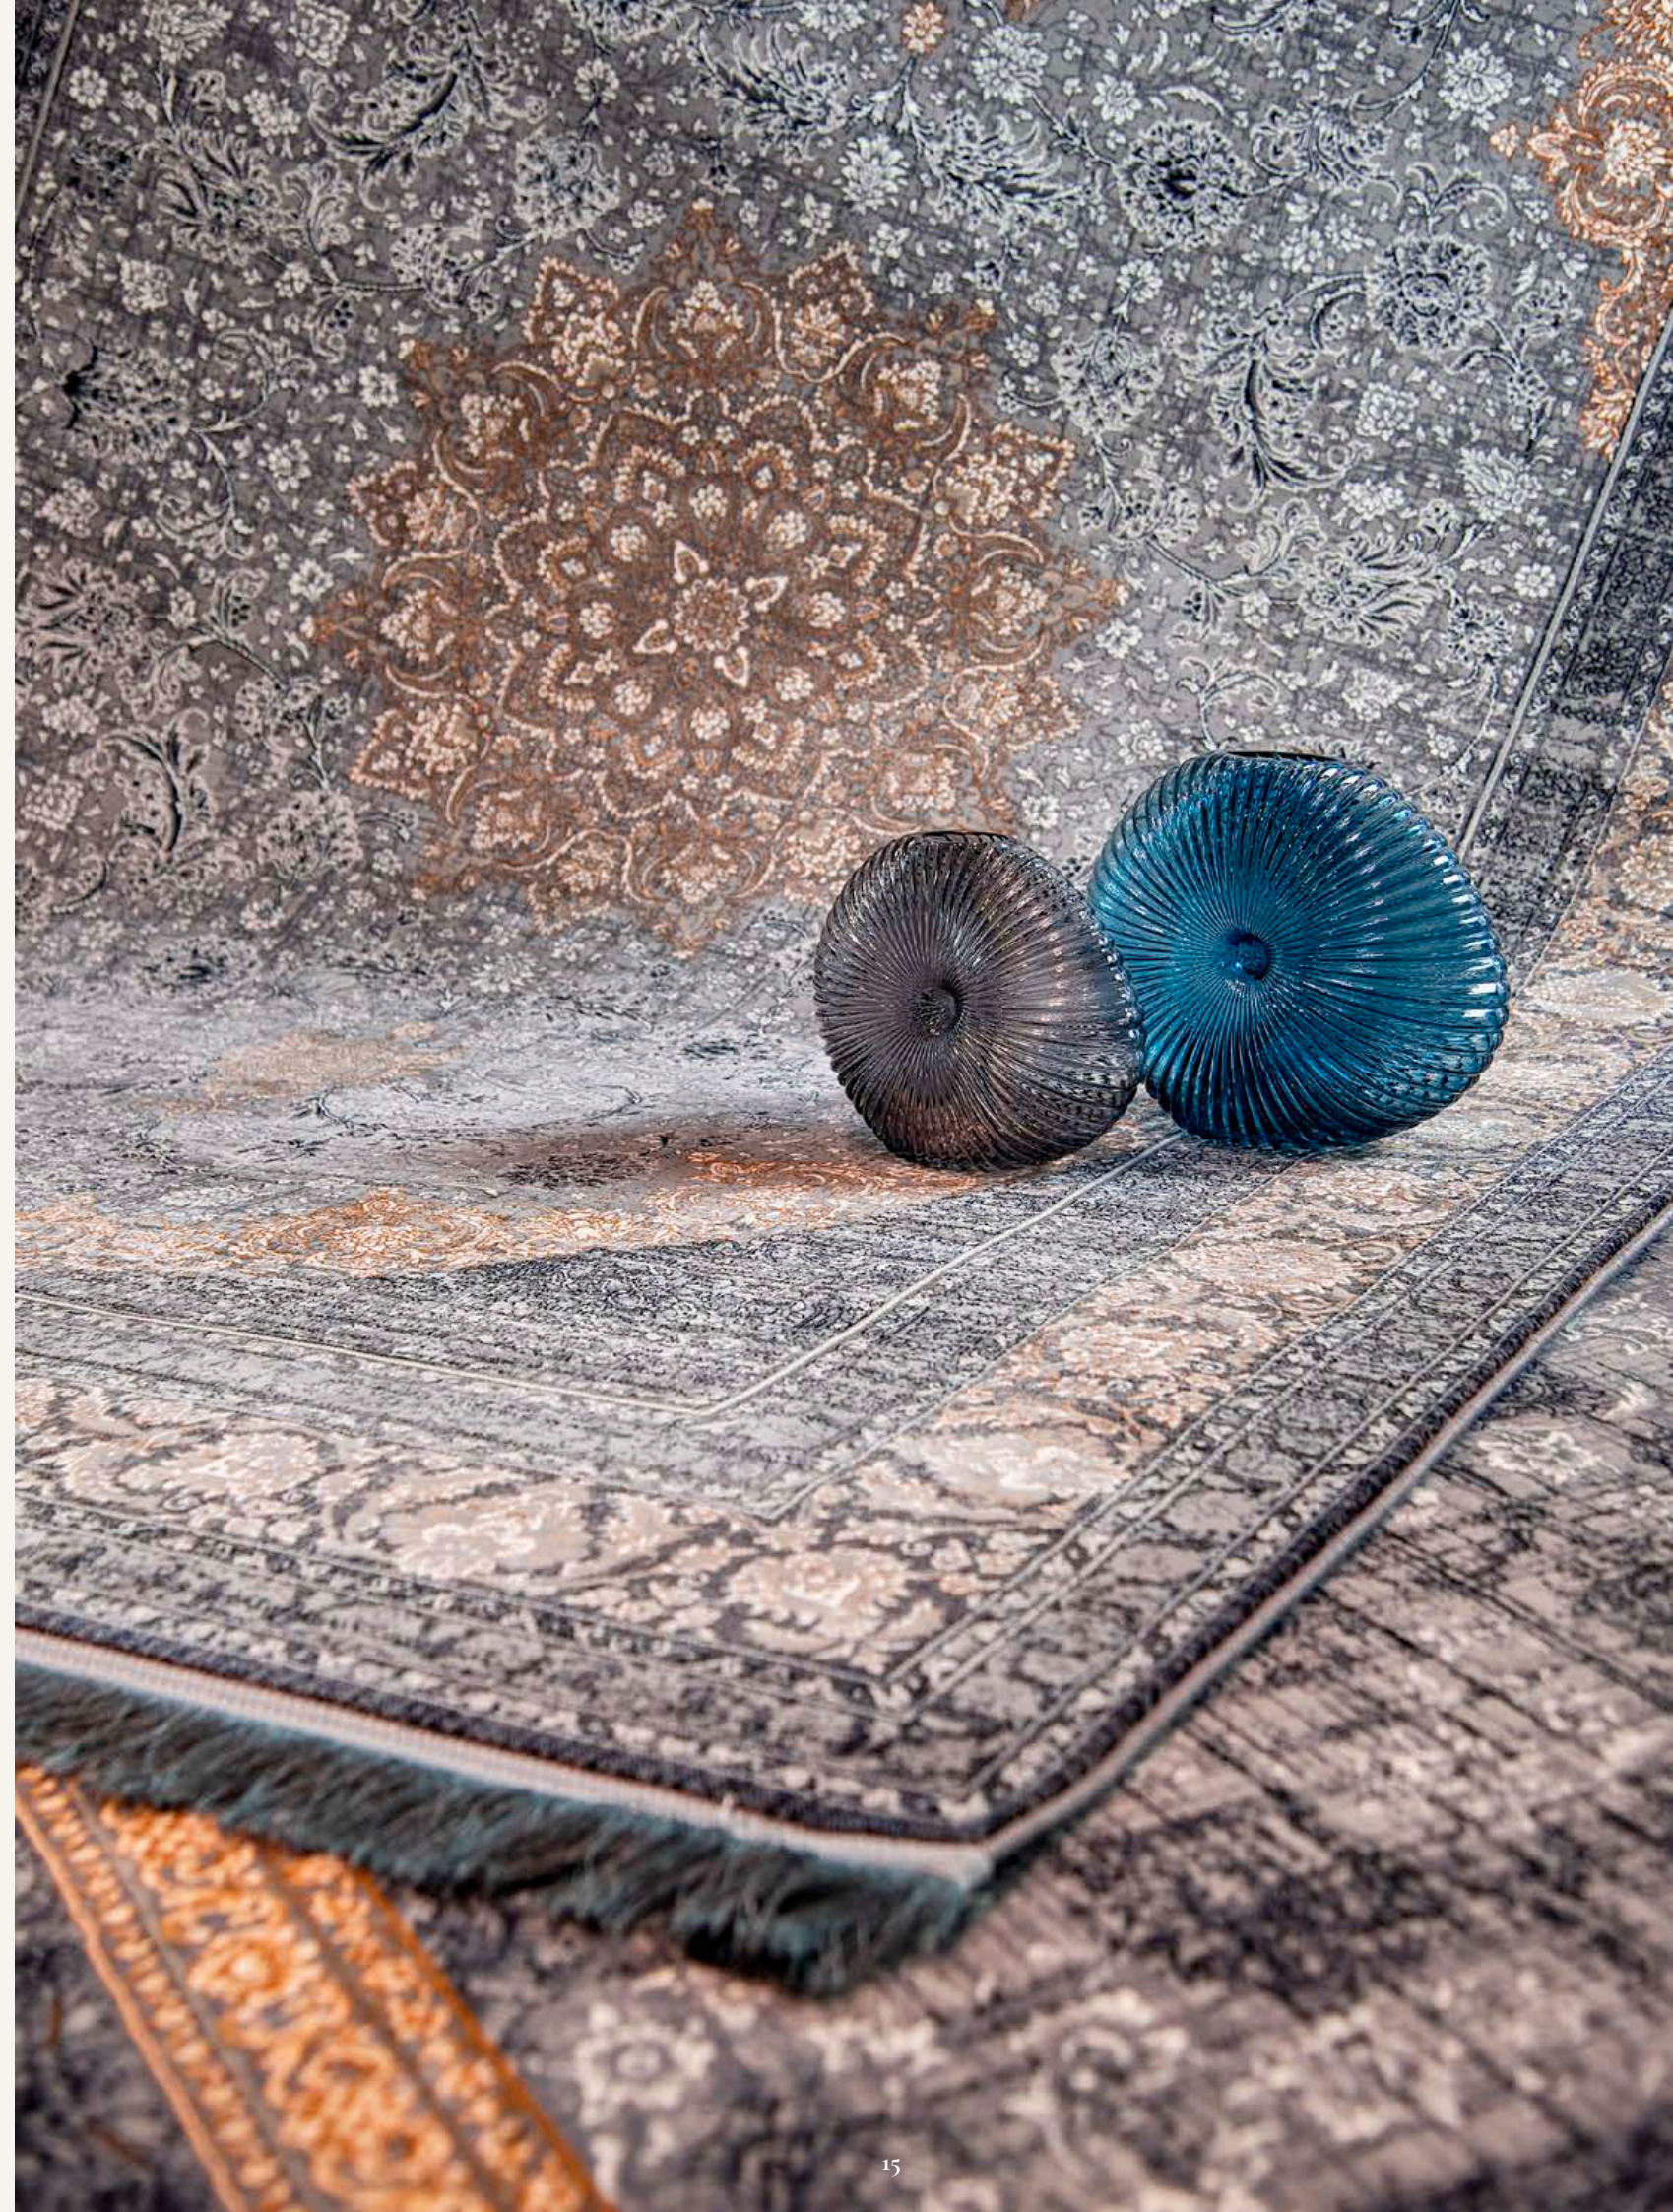

We have selected four popular categories of styles: Isfahan, Afshan, Kheshti and French to cater to diverse tastes in vast markets. We have also blended gray color with specific colors to create matchable and attractive carpets.

Fusion of Art and Modernity

Producing a machine-made carpet is a sophisticated process that demands accuracy, expertise and care for the details.

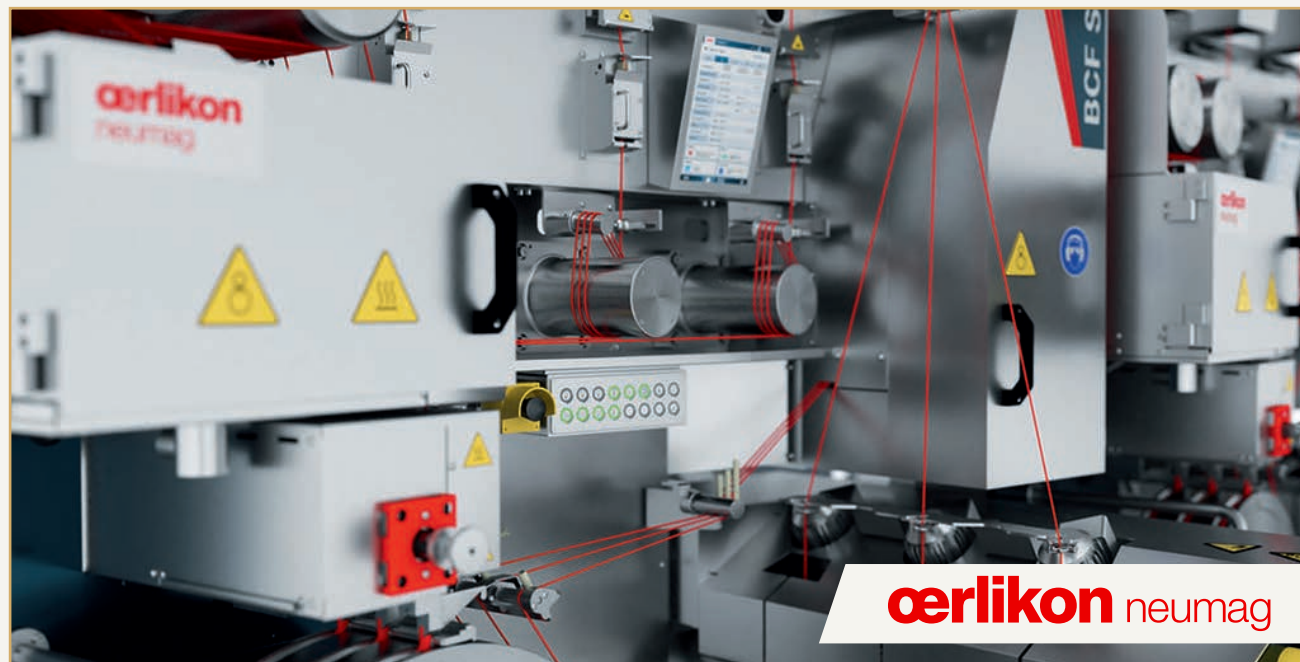

From our idea to the final products, we have to consider factors such as color palette, design, fiber and material, weave structure, yarn count, and finishing process.

Even the slightest difference in any part of the process can make a huge difference in the final outcome. Each step has its own specification, and we follow them diligently to deliver the best of our concept.
